Address: Addis Ababa

## Professional Summary

---

Full Stack Developer with 2+ years of experience specializing in high-performance web applications. Proficient in React, Angular, TypeScript, Node.js, and ASP.NET Core, with a track record of delivering scalable solutions. Skilled in RESTful APIs, SQL/NoSQL databases, and Agile methodologies. Passionate about modernizing systems, optimizing performance, and collaborating with cross-functional teams to solve real-world challenges.

## Skills

---

### Technical Skills

**Frontend:** React, Angular, JavaScript/TypeScript, Redux

**Backend:** Node.js, ASP.NET Core, C#, RESTful APIs

**Databases:** SQL Server, MongoDB, PostgreSQL

**DevOps:** CI/CD, OAuth2/JWT, Performance Optimization

### Software Tools

Git, Docker, VS Code

Jira, Postman, Figma

MongoDB, MSSQL, MySql

Firebase, Netlify

## Work Experience

---

Full Stack Developer - \*DAFTech Social ICT Solutions • Ethiopia • 07/2023 – Present\*

- Spearheaded the development of a Transport Management System (TMS) using Angular and ASP.NET Core, improving regional transportation services for 5M+ users and achieving 35% operational efficiency gains.
- Delivered 5+ major projects on time/budget by implementing Agile practices, reducing system outages by 20%.
- Optimized codebases for scalability, enhancing client satisfaction and retention.
- Led the development of custom software applications tailored to client needs, achieving a 35% boost in operational efficiency.

Software Developer - \*Ethiojobs.net • Ethiopia • 08/2021 – 10/2021\*

- Built web apps with React, Node.js, and MongoDB, increasing customer satisfaction by 15%
- Collaborated using Git and Agile methodologies to streamline workflows.

## Projects

---

Transport Management System (TMS) • DAFTech • 05/2024

- Modernized transport systems for Oromia/Benishangul-Gumuz regions using Angular, ASP.NET Core, and SQL Server.
- Implemented modules for vehicle registration, driver management, and penalty administration.

ERP System • DAFTech • 01/2023

- Full-stack React + Node.js solution to centralize business operations, improving workflow efficiency.

## Education

---

**BSc in Computer Science and Engineering** - Adama Science and Technology University • 2017–2022
